

Tropical Forest Environments 4

(BA49000 / G-AGR02 7BD03 LB80)

by Kaoru KITAJIMA & Hiroko KUROKAWA

Register via KULASIS

Meeting in S-130

For Graduate
Students

This class will read book chapters and peer reviewed papers on the following topics in English. All communication will be conducted in English, but the instructors will be happy to help students who need some support in Japanese.

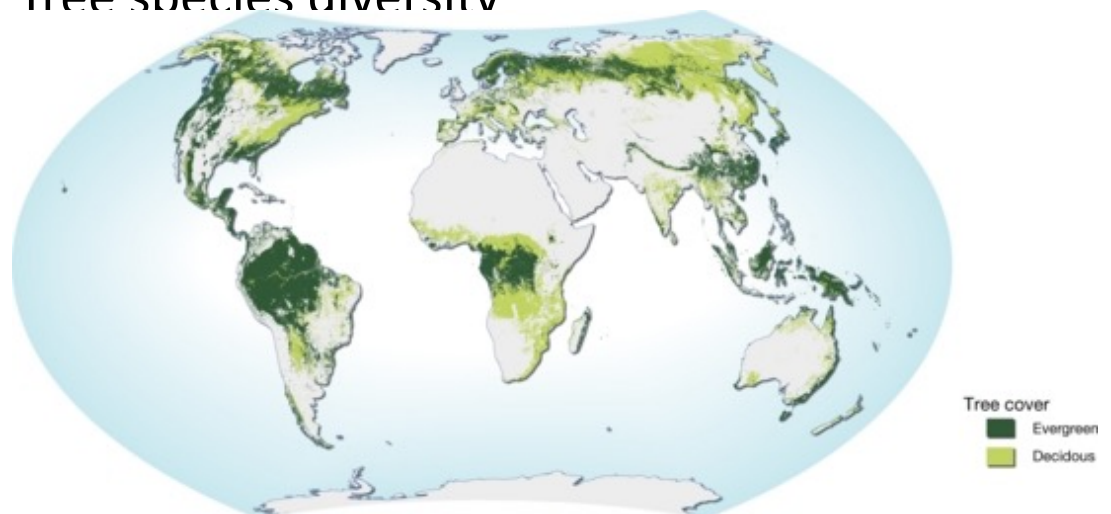

Classes **meet Period 1 & 2 of Thursdays (8:45-12:00, except that November 7 meeting is only from 10:30-12:00) in S-130 of Faculty of Agriculture General Building**

October 17: Physical environment of tropical forests

October 24: Litter decomposition and nutrient cycles (HK)

October 31: Form and function of forest trees

November 7: Tree species diversity

For questions or to participate without credits, please contact Professor Kaoru Kitajima at:

kitajima.kaoru.4s@kyoto-u.ac.jp or kitajimak@me.com
